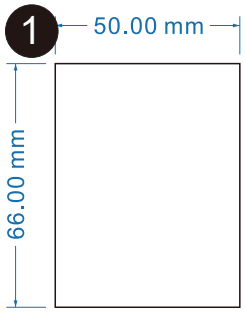
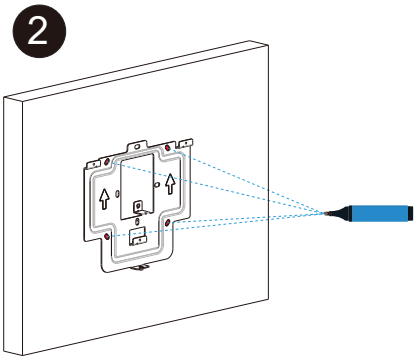
Installation

Step 1: Wall Bracket Installation

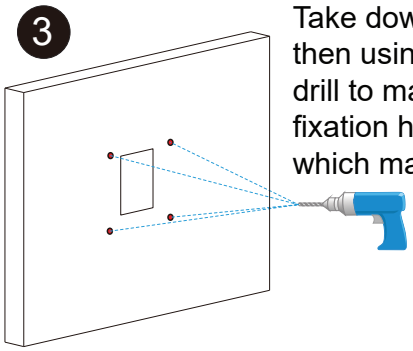
Without embedded box in the wall



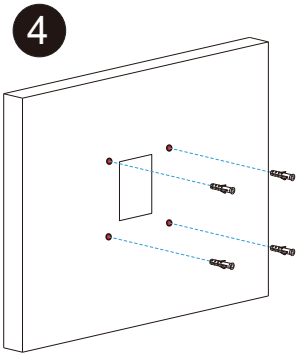
According to the position of the cable in the wall, dig out a square hole(height*width*depth =66*50*50mm) that can accommodate all cables.



Align the square hole of the wall bracket with the hole digged out before, then mark the four fixation holes through bracket on the wall.



Take down the bracket, then using a 5mm hand drill to make the four fixation holes on the wall which marked before.



Once the fixation holes were made, insert screw fixing seats provided.
